T3-AC2CP

Table Boxes with Pre-installed Pull-out Cables

FSR

Metal Products Group

T3-AC2CP
Shown with aluminum cover.

T3-AC2CP
Shown with black cover.

T3-AC2CP
Shown with cables extended.

DESCRIPTION

The T3-AC2CP is an ideal table box for desktop and laptop PC users, where convenient access to network drops, AC power sources and video/audio displays is required. The small footprint provides an unobtrusive complement to any décor. Integral pull-out cables are included.

The T3-AC2CP primarily allows quick, convenient access to AC power outlets and pre-installed network cables for up to two computers or laptops.

The user can easily pull out the appropriate cables from the unit's compartment and connect their Laptop or PC. The cables extend out to reach the equipment. AC power outlets in the compartment provide an AC source for PC's and laptops. When the user is finished, the cables are returned to the compartment for safe keeping. No more "Cable napping". Cables always stay safely and securely tucked away when not in use.

The AC power cord that feeds the outlet(s) has a convenient plug at the end of the 9' cable that is simply plugged into a local wall outlet eliminating any costly line voltage wiring. Hardwire versions, where a hole for a conduit feed through and lugs on the back of the AC outlet(s) are available to meet certain code requirements. (See ordering table for details)

These stylish table boxes will fit a round 3½" opening with simple installation using a standard drill.

Round covers are available in brushed black or brushed aluminum.

FEATURES

- *Can be matched to nearly any décor with Black or Aluminum top*
- *Easy and flexible installation*
- *Fits a 3½" hole. ¾" to 2½" table thickness*
- *Cables cannot be removed by the user*
- *Built to Last CNC Milled solid cover*
- *Hardware and tie wraps included*
- *Rugged 16 gauge-galvanized steel chassis*
- *Cables pre-installed and ready to use*
- *No annoyance factor cover opens 96° so it stays open*
