HDBaseT™ EXTENDERS

The Next Generation Digital Ribbon Cables utilize a proprietary technology to allow high speed and high definition HDMI signal transmission over distances of up to 100m. The cables are designed to be used in commercial or residential environments. The cables are constructed with solid copper wire, ultra-thin UV resistant jacket and connections that meet all 2.0 specifications. These cables can transmit up to 6K 60Hz 4:4:4 uncompressed HDMI Video, giving you protection and high quality packaged together.

The FSR library of intelligent solutions offers a comprehensive selection of accessories, available in wide varieties. Simply select a plate that fits your application and available space. The plate can be mounted directly to the wall or the table. For assistance in selecting the proper box to hold your power, data voice, video, etc., please call us at 1-800-332-FSR1 (3771).

The Perfect PoE/USB Charger

You can power and charge the iPad from a PoE-Ethernet drop without the need for AC line power. Mount this small cube in a 2-gang wall box behind the FSR iPad wall mount. The PoE / USB charger will operate and charge the iPad supporting Apple’s charging standard. The PoE / USB Charger will also notify the iPad that it is connected to a charger avoiding annoying pop-ups.
