FSR Works For You

# SMART-WAY RACEWAY SYSTEMS

The Smart-Way raceway is a power and data distribution floor system designed to fit today's working environments. Our raceway system is simple to configure, ADA-Compliant, and adds architectural appeal to any space. Redefine how you manage your cables in any space with FSR's raceway, fittings, in-feeds, and device box options. The Smart-Way is intended for offices, conference rooms, collaborative work environments, classrooms, or anywhere wire management is desired.

Smart-Way device boxes offer the versatility of installing a 45mm universal socket in the housing. We offer three different international device box options that can be used with our dual or single 45mm device plate.

## It's a Full Raceway System in a Box!

The Smart-Way iQuiK can be easily configured to fit your needs. With Smart-Way iQuiK, four components can get your power and data where needed. The possibilities are endless.

The Smart-Way iQuiK includes everything needed to configure a cable raceway in one convenient package: an in-feed, raceway, device box, and end stop. This all-in-one system is available in three length options: 6, 9, & 12 feet. The iQuiK come in slate and aluminum finishes, ensuring a modern appearance that fits any space. Perfect for any space where wire management is desired! (All parts included; have your electrician wire and install the system).

# UNIVERSAL WALLPLATES & SOCKETS

FSR's International series wall plates easily adapt any country's specific 45mm snap in power outlet to fit into any US "Gang" sized opening such as those found in our complete line of Floor boxes, Wall boxes and other products.

Both 1-GANG and 2-GANG versions include a mounting plate with 45mm opening(s), rear retaining plate and are available with or without a Wonpro outlet(s). The connectors snap into the provided plate without any hardware and are designed for ease of installation and a secure fit.

# FLOOR BOXES

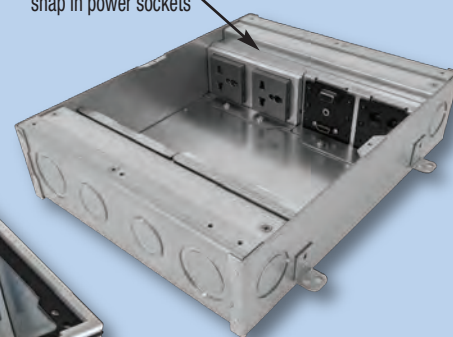

## Proven in the Worlds Most Iconic Spaces

FSR's Flagship UL Listed Floor Box. The FL-500P floor box combines rugged construction and an elegant design for use in carpet, tile or wood covered floors over poured concrete applications. This floor box has ample compartment room to accommodate power, audio, video, telecommunications and data in one elegant and practical box.

# CONFERENCE ROOM CABLE RETRACTORS

Bring order and efficiency to your Microsoft Teams Rooms® with FSR's Cable Pilot retractor.

Transform your collaboration space with clean table wire management. This compact solution eliminates messy cables stretched across your meeting table by neatly housing HDMI or USB-C connections that can be quickly deployed up to 6 feet when needed. Available in two convenient sizes, 7" x 7" and 7" x 10", the retractor integrates seamlessly into your MTR or any collaboration space, keeping your space clutter-free. The Cable Pilot table retractor sets the standard for connectivity in Microsoft Teams Rooms®.

Available in USB-C or HDMI options and 7" x 7" or 7" x 10" sizes.

PATENT PENDING

# TABLE CONNECTIVITY

A wide variety of table boxes that are unique and upscale, meeting the aesthetic demands of today's consultants, architects and clients. Brass, black and aluminum in a variety of sizes, shapes, and accessories are available from stock.

## The Harmony Collection

The Harmony Collection of table boxes provides a powerful and affordable solution for any installation. The versatile connector cavities are 100% configurable and allow for both high and low voltage.

Whether you select a round or square cover, the mounting is always a 6" diameter round hole. The Harmony Collection is available in black, white, or a silver matte finish.

## The Unity Collection

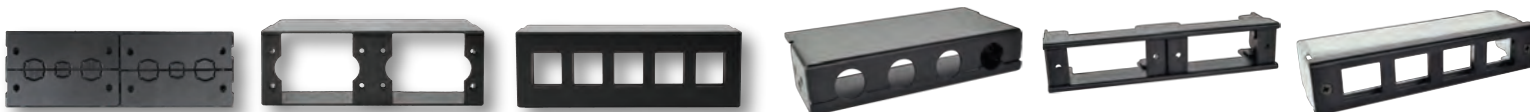

The Unity Collection of table boxes provides the ultimate connectivity and functionality. It is designed with hideaway doors for easy access to the insert brackets and cable retractors; it makes connectivity effortless.

## Internal Brackets

The various internal brackets available are designed to contain AC, USB Chargers, Cable Pulls, Cable Retractors, Snap-In Keystone Connectors, or IPS Solutions.

Our T6 Table Box insert brackets and Cable Retractors are available for our new CT6 Table Box Series.

Pick from the T6-LB-UN, T6-LB-4SS, T6-LB-5SS and T6-HLB brackets.

# CABLE MANAGEMENT SOLUTIONS

## Under-Table Channel

The Under-Table Channel provides a solution for dressing cables horizontally along the table underside. Its unique shape and rubber like edge allows cables to enter and exit the channel at any point along its length.

## Under-Table Rack

Under-Table Rack shelving mounts multiple pieces of AV, Digital, or Data equipment to the underside of tables with easy access..

## Block and Slide

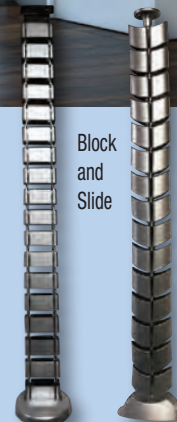

The Block and Slide provide a simple, economical and elegant way to rout cabling from the underside of your work surface to the floor. Both models feature easy installation and add an aesthetically appealing appearance under any workspace. Manage your cables in-style with the Block and Slide.

# TANGLE FREE CABLE MANAGEMENT

## Tangle-Free Cable Management is here at last!

FSR's cable retractors offer convenience as well as cable storage and protection, hiding unsightly cables when not in use. The cables can be quickly deployed by the user and extend up to four feet. A simple pull and release of the extended cable is all that is needed to return the cable to the reel. Retractors can mounted in a horizontal position under a table surface to maximize space.

# NEXT GENERATION DIGITAL RIBBON CABLES

The Next Generation Digital Ribbon Cables utilize a proprietary technology to allow high speed and high definition HDMI® signal transmission over distances of up to 328 ft. The cable is fitted with a discreet black jacket that allows the cable to seamlessly blend in after installation. These Next Generation cables are Plenum Rated and are offered in 4K, 8K, and USB Type-C options. Giving you protection and high quality packaged together.
