The T3U series are small, elegant additions to your conference table, lecterns, and work spaces. Plug in your laptop, power up your projector, plug in your microphone, or access a cable for your computer. The T3U handles it all gracefully and efficiently. The units offer a variety of connections using interchangeable mounting plates and connectors.

Available in black, brass and nickel finishes.

Easy under table connectivity without cutting a hole in your table!

**Concertto**

This system provides clear, elegant cable management in table designs that lack a pedestal for hiding cables and power as they transition from the tables boxes to the floor. The DS-5 Wiring Star makes quick neat work of storing extra cable length under tables, behind desks, in podiums and credenzas.

Wireless Charging

Charges any device equipped with “Qi” wireless chargers. Use for fast wireless charging when attached to adapter to charge power supplies. Will also charge at standard rates when used with standard power cords.

Available in Black or White finishes.

**TILT-UP BOXES**

**T3U SERIES**

A small format tilt top style table box along the same lines as the TB-AVAC, but in a black-anodized aluminum (B-A) finish. The TB-U 15A is a 20A, 120V AC duplex receptacle with two 15A type 2-0 chargers and 1/4" mini Jacks. Charging options at 12 Watts to make quick charge of tablets and other devices.

**HUDDLEVU KITS**

FSR's line of collaborative solutions are designed to address the way we work and approach business in the 21st century. HuddleVU Kits take the work out of designing elaborate systems. With three different pre-packaged systems, integrators can choose the appropriate configuration for their customer's needs with kits accommodating from two to four users complete with the necessary hardware, including terminal boxes, connector plugs, and a host of accessories. Each kit can be upgraded with optional retractors.

*Charging options at 12 Watts to make quick charge of tablets and other personal devices.

**CONNECTTO**
