Empowering Connections

FLOOR BOXES

Access to Connecting in All Types of Floors

A unique variety of boxes to handle stage, raised access, poured concrete, gymnasiums or retro-fit flooring applications. FSR matches the décor of your installation with solid construction, beautiful carpet rims, flanges, and available accessories.

Our Fire-Resistant floor solutions expand the versatility of our floor box line by providing enhanced, fire-resistant versions. Our FRK kits are UL listed and comply with UL 263 Fire Resistance Ratings.

Configure Online

SMART-WAY RACEWAY

The Intelligent Choice

The Smart-Way Raceway System is the intelligent choice for managing power and data on your floors.

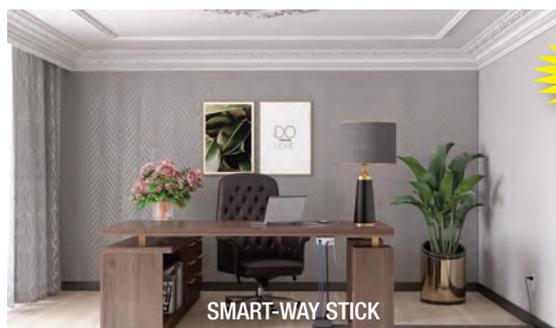

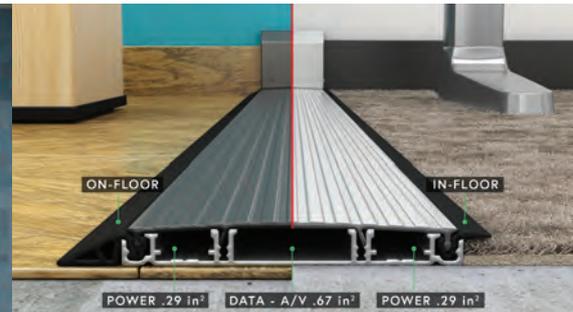

It installs on top of or in any flooring and provides affordable and attractive installation.

When access to your walls is an issue, the Smart-Way wall raceway allows you to route from the ceiling to the floor raceway.

The raceway is perfect for collaborative environments, classrooms, gyms, corporate offices, etc.

The raceway compartments provide ample space for power, communications and A/V connectivity. The Smart-Way is only 0.6" high, ADA compliant, available in slate gray or aluminum finishes and is sold in 6' sections.

The Smart-Way Quik includes everything needed to configure a cable raceway in one convenient package: an in-feed, raceway, device box, and end stop. This all-in-one system is available in three length options: 6', 9', and 12'.

WALL BOXES

Protect and Secure your Infrastructure Connections

Indoor and outdoor wall boxes protect your wall plates, panels and connections elegantly and securely. Every wall mounted display needs a PWB!

The PWB-FR-450 is the industry's only fire-rated box of this size.

EDID Manager/
Learner

Next Generation Digital Ribbon 4K & 8K Cables utilize a proprietary technology to allow high speed, high definition HDMI signal transmission over distances of up to 328 ft. Available with CoilGuard™ steel reinforced cable.

Now available with USB Type-C connector

HDBase™ EXTENDERS

70 meter

HD-H704K-WP — The HD-H704K-WP 18G HDMI® extender consists of a single gang wall plate transmitter and a small thin brick receiver.

100 meter

HD-H1504K-SP — 18Gbps HDMI extender set that allows HDMI, RS-232, and bi-directional IR signals to be extended to a distance up to 492ft / 150 meters between the transmitter and receiver via a single CAT cable.

CABLE MANAGEMENT SOLUTIONS

Engineered as the ultimate companion for cable ladders, QuikPost sets a new standard for efficiency and reliability in cable retention solutions. Designed to create a secure retaining point between sections of your ladder rack, the QuikPost ensures the secure organization and management of your cables, minimizing the risk of spillover and damage. Its instant snap-on cable retention feature saves installers valuable time and resources, streamlining the setup process without compromising performance.

Under-Table Channel

The Under-Table Channel provides a solution for dressing cables horizontally along the table underside. Its unique shape and rubber like edge allows cables to enter and exit the channel at any point along its length.

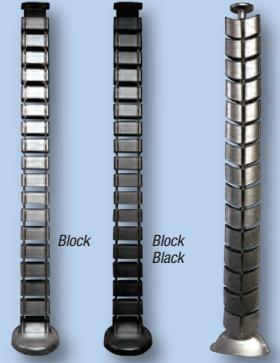

Under-Table Rack

Under-table Rack shelving mounts multiple pieces of AV, Digital, or Data equipment to the underside of tables with easy access.

BLOCK & SLIDE

The Block and Slide provide a simple, economical and elegant way to route cabling from the underside of the work surface to the floor. Both models feature easy installation and add an aesthetically appealing appearance under any workspace.

CHARGING STATIONS

SYMPHONY Pedestal

This floor standing unit gives you AC power, USB charging, snap-ins, cable pass-through and any other type of connectivity that you may require. Perfect for under a desk or waiting area applications. Available in black or white.

Wireless Charger

The TC-WC1 fuses a refined minimalism with wireless charging technology. It is easy to install, giving you charging capabilities at your fingertips. The wireless charger is available in black or white with an aluminum bezel.
