SMART-WAY iQuiK

A Full Raceway System in a Box

Whats in the box

1. Low-Profile in-feed
2. Raceway
3. Device Box
4. *Duplex Receptacle
5. Brush Insert
6. End Stop

*One 15A 5-15 Duplex or 2 ea. SCHUKO and UK Sockets

The Smart-Way QuiK includes everything needed to configure a cable raceway in one convenient package an in-feed, raceway, device box, and end stop. This all-in-one system is available in three length options: 6, 9, and 12 feet. The QuiK Kits come in slate and aluminum finishes, ensuring a modern appearance that fits any space. Smart-Way QuiK is perfect for any space where an affordable and contemporary wire management solution is needed.

Why Choose FSR's QuiK System?

- One SKU Solution
  - Includes in-feed, raceway, device box, and end stop (All parts included; have your electrician wire and install the system)
  - Available in 6, 9, or 12-feet lengths in slate or aluminum finishes
  - Ideal for offices, meeting rooms, collaborative spaces, or anywhere cable management is needed with power and data accessibility

SMART-WAY WALL RACEWAY

When in-wall access isn't an option, the Smart-Way Wall Raceway Kit offers a clean, sleek way to manage cables from ceiling to floor. This solution is ideal for fire-rated walls, concrete, brick, and other solid surfaces.

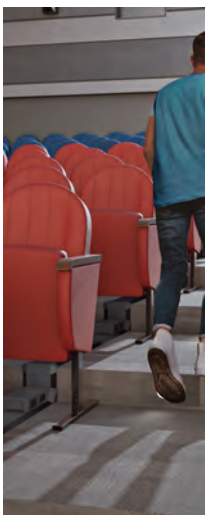

Why use FSR's wall raceway?

- Design this into your space and watch it disappear
- Routes cables from the ceiling to the floor when interior wall access isn't feasible
- Provides an attractive on-wall cable management solution in slate gray or aluminum finishes
- Aluminum raceway is suitable for over-painting to match interior wall color

SMART-WAY RACEWAY STAIR RISER

1st Physical Support Equipment

Power & Data Across Multiple Levels

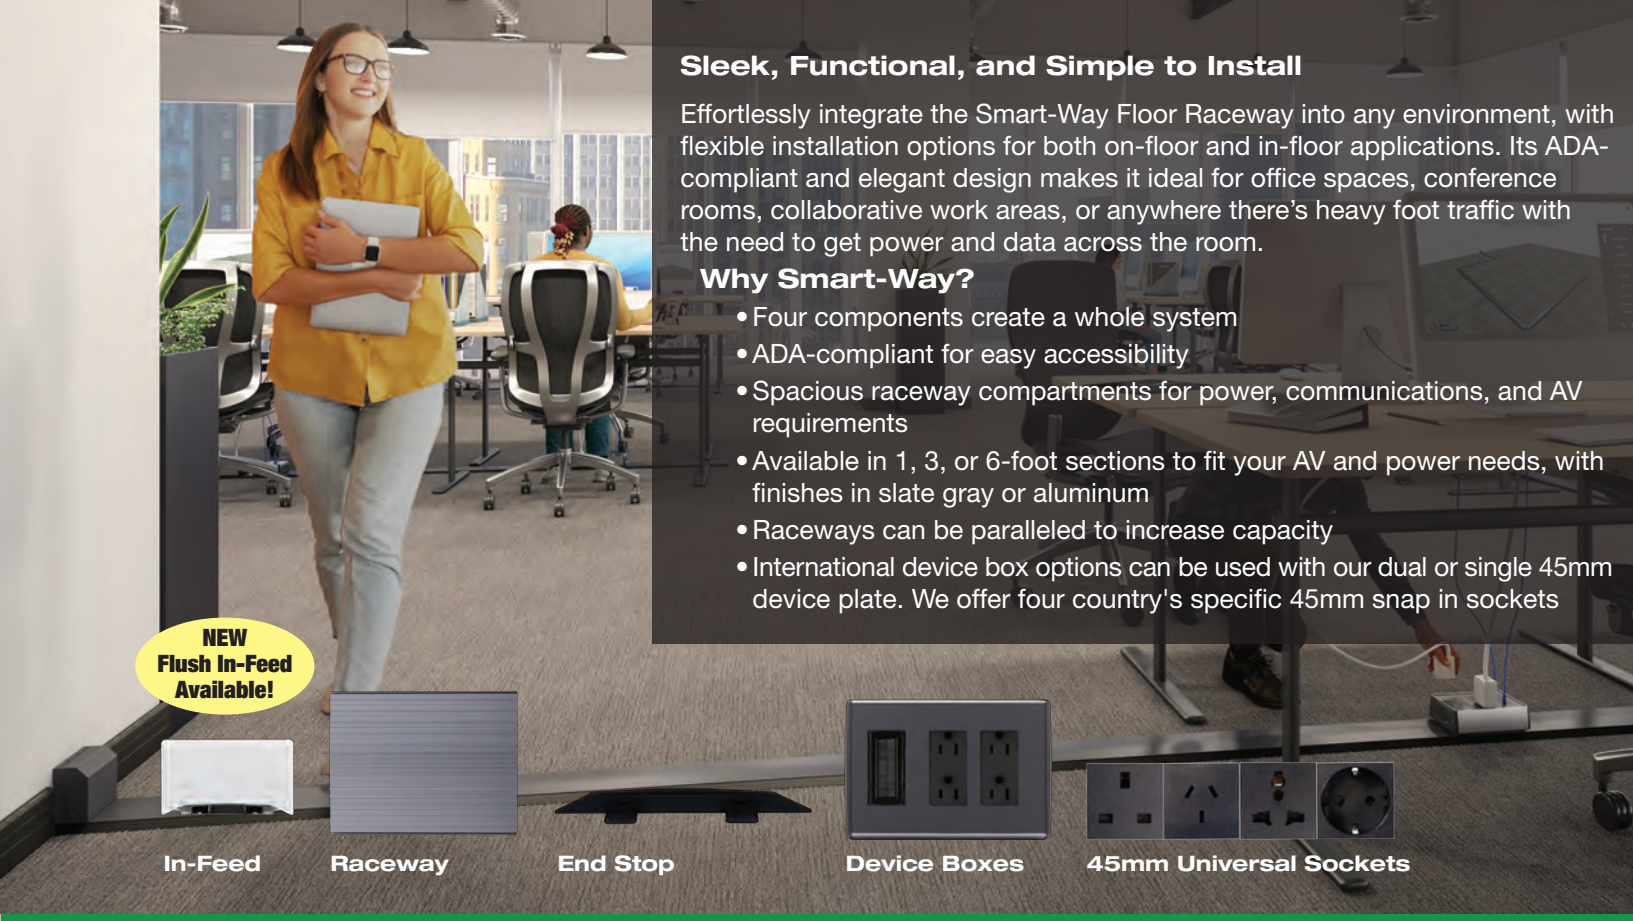

The Stair Riser is a perfect solution for amphitheaters, stadiums, movie theaters, or auditoriums delivering power and data to rows of seats or bench-type tables. The side entry device box with KOs is positioned under the seating, providing easy access to power.

Why Choose the StairRiser?

- Compact design to minimize tripping hazards
- Inside & outside corners for versatile installation
- Slate finish for discreet integration
- Under-seat device box with side-mounted exits for limited spaces

Sleek, Functional, and Simple to Install

Effortlessly integrate the Smart-Way Floor Raceway into any environment, with flexible installation options for both on-floor and in-floor applications. Its ADA-compliant and elegant design makes it ideal for office spaces, conference rooms, collaborative work areas, or anywhere there's heavy foot traffic with the need to get power and data across the room.

Why Smart-Way?

- Four components create a whole system
- ADA-compliant for easy accessibility
- Spacious raceway compartments for power, communications, and AV requirements
- Available in 1, 3, or 6-foot sections to fit your AV and power needs, with finishes in slate gray or aluminum
- Raceways can be paralleled to increase capacity
- International device box options can be used with our dual or single 45mm device plate. We offer four country's specific 45mm snap in sockets

Adaptive Learning

Transform your classroom into a tech savvy haven with the Smart-Way Floor Raceway. This sleek & discreet floor solution allows easy cable management, ensuring a clutter-free learning space.

Corporate Office

Optimize your office to enhance efficiency and provide essential power and network connections.

Home Gym

A cost-effective and attractive way to get your power, data, and AV across your residential space.

Grocery Marketplace

Avoid obstacles and create a seamless experience for shoppers with Smart-Way's corners and power pole.

Esports Innovation Lab

A dynamic space where esports athletes from all disciplines come together to train and compete.

Training Facility

An aesthetically pleasing and functional addition to any multi-use training space.

Made in USA

SMARTWAY RACEWAY

Smart-Way raceway products meet the Build America Buy America Act (BABAA) and TAA requirements

SMART-WAY STICK

Power Anywhere, Anytime

The Smart-Way STICK is the smart way to get power and data on the floor where you need it. The Smart-Way STICK gives you the capabilities for power in a complete wired unit or power and data with our 321 Snap Stick model. All models give you the ability to have access to power anywhere, anytime within seconds. The 321 and STICK device box is now available with Dual USB Charger Duplex Receptacles and Schuko sockets for international use.

One Raceway, Many Possibilities

The Smart-Way Raceway is reshaping how power, data, and AV communications can optimize any environment.

The Smart-Way takes a streamlined approach to cable management and connectivity without the need for complex structural alterations.

With its ADA-compliance, ample space for cables, and aluminum or slate gray finishes; this truly is the intelligent choice for wire management.
