The standard PWB-450 is the largest of our PWB Series Wall Boxes. Two mounting brackets are available for mounting the Crestron DM-RMC-4K-SCALER-C receiver/room controller or other digital media interfaces and devices.

Inside the PWB-450 are four (4) pre-wired AC outlets along one vertical side of the box which are isolated from the four (4) accessory plate mounting brackets to allow AC and low-voltage connections within the same box. There is a 9” – ¼” concentric KO on the top and bottom of the box for the AC conduit connections. 1” KO’s in the divider plates to allow the use of one or more accessory plates for AC connections.

Three of the accessory plate brackets are punched for a single gang Decora opening while the fourth bracket is punched for FSR’s IPS Connector mounting brackets to allow AC and low-voltage connections within the same box. There is a ½” – ¾” concentric KO on the top and bottom of the box for other digital media interfaces/devices.

Two mounting brackets are available for mounting the Crestron DM-RMC-4K-SCALER-C two (2) of the accessory plate brackets will be removed from the box.

Features:
- 4 pre-wired AC outlets (1 rotated)
- Simple installation
- Removable internal Brackets to accommodate larger devices
- Mounting Hardware Included
- Optional PWB-450-DM4k Bracket accommodates Crestron DM-RMC-4K-SCALER-C
- Optional PWB-450-MMS Bracket accommodates other digital media interfaces/devices

Applications:
- Digital Signage
- Huddle Areas
- Hotels
- Conference Centers
- Schools
- Airports
- Command Centers
- Electronic Billboards
- Museums
- Arenas

Infrastructure...from the ground up

Fire-Resistant Boxes

Our Fire-Resistant floor boxes expand the versatility of our floor box line by providing enhanced, fire-resistant versions of our existing products. Our FWR boxes are UL listed and comply with UL 283 Fire Resistance Ratings.

Ceiling Boxes & Wall Enclosures

Now you can remove the unsightly equipment boxes hanging off projector poles and mount them in this architecturally-designed ceiling enclosure. Many styles, various price ranges, and "Smart and Green" modules make these boxes perfect for classrooms, boardrooms, meeting rooms and public spaces. These are your equipment racks for ceilings and walls.

Features:
- Black or White cover options
- Rugged 14 Gauge Steel
- Simple installation
- Mounting Hardware Included
- Optional PWB-450-DM4k Bracket accommodates Crestron DM-RMC-4K-SCALER-C
- Optional PWB-450-MMS Bracket accommodates other digital media interfaces/devices

Applications:
- Huddle Areas
- Hospitals
- Schools
- Conference Centers
- Command Centers
- Airports
- Electronic Billboards
- Museums
- Arenas

Table & Wall Boxes

TABLES - A wide variety of table boxes that are unique and upscale, meeting the aesthetic demands of today’s consultants, architects and clients. Brass, black, bronze and nickel finishes, a variety of sizes, shapes, and accessories are available from stock.

WALLS - Connections on the wall become safe, simple and secure using an FSR wallbox.

Floor & Wall Boxes “Crestron Ready”.

The new FL-200 series is designed to mount Crestron DM-TX-200-C-2G products. The 4” back box has a single Decora opening for data or power connections on one side. The optional bracket, ordered separately, has a 2 gang opening for mounting a modified Crestron DM-TX-200-C-2G that requires more room behind the plate. The bracket replaces the existing brackets on one side of the box. The replacement bracket stands vertically instead of an angle like the original box bracket.

The FL-200 Series covers are designed to match those on the FL-500P and FL-600P Series floor boxes. This provides visual continuity in installations where FL-200’s are installed along with FL-500P’s and FL-600P’s. The covers meet UL scrub water requirements for tile and carpet installations and feature easy tool free access for a finished look.

FSR’s expanded solutions for making Floor & Wall Boxes “Crestron Ready”.

There are two new mounting bracket kits available for mounting Crestron DM-TX-200-C-2G Digital Media Transmitter Wall Plates into the following 4” deep Floor Box models:

- FL-200 uses MMFSFL200-4 mounting kit (4” Box only)
- FL-500 and FL-540 4” deep Floor Boxes use the MMFSFL500540P-4 mounting kit
- FL-600 and FL-640 4” deep Floor Boxes use the MMFSFL600640P-4 mounting kit

* Installation requires a minor field modification of the DM-TX-200-C-2G wall plate as shown on the supplied drawing. No modification or special brackets are required for the 6” or deeper model floor boxes.

The mounting kits above (99509 or 99495) include brackets that replace existing brackets on one side of the box. Depending on the floor box model, this new configuration will still leave the existing bracket with a 4-gang or 5-gang opening on the opposite side for other AV, Data, or AC power connections.

This provides visual continuity in installations where FL-200’s are installed along with FL-500P and FL-600P series floor boxes. The covers meet UL scrub water requirements for tile and carpet installations and feature easy tool free access as well as a fold down cable exit door which allows the cover to be closed with cables exiting the box.

The covers must be ordered separately along with the Crestron Digital Media Interface and this cross piece, in order to clear the depth of the Crestron DM-TX-200-C-2G. The SmartFit SF8-SPC5 trim plate can be ordered over the Crestron DM-TX-200-C-2G for a finished look.

PWB Wall Box Options

The PWB-270 / 273 wall boxes are specifically designed to quickly and easily house a Crestron DM RMC-SCALER-C Receiver and power supply (provided by Crestron) behind a wall mounted display. The power supply and power supply are mounted to a removable bracket which is in turn mounted to the back box.

SmartFit Poke-Thru Options

The Crestron DM-TX-200-C-2G Digital Media Transmitter Wall Plate can also fit into the 8” SmartFit poke-thru without any modification by simply using the MMFS8 Wall Plate kit. The kit includes (4) 26659 standoffs and (8) 43763 washers to raise the plate in order to clear the depth of the Crestron DM-TX-200-C-2G. The SmartFit SF8-SPC5 trim plate can be ordered over the Crestron DM-TX-200-C-2G for a finished look.
FSR’s expanded solutions for making Floor & Wall Boxes “Crestron Ready”.

**FL-500P / 600P Series Floor Box Options**

There are two new mounting bracket kits available for mounting Crestron DM-TX-200-C-2G Digital Media Transmitter Wall Plates into the following 4” deep Floor Box models:

- FL-200 uses MMS-FL-200-4 mounting kit (4” Box only)
- FL-500 and FL-540 4” deep Floor Boxes use the MMS-FL-500/540P-4 mounting kit.

* Installation requires minor field modification of the DM-TX-200-C-2G wall plate as shown on the supplied drawing.

**FL-200 Floor Box**

The new FL-200 pop-in-place floor box series is designed to provide a smaller box option. This plate should be made to match the specifications of the bracket.

- The 4” back box has a single Decora opening for data or power connections on one side. The optional bracket, ordered separately, has a 2 gang opening for mounting a modified Crestron DM-TX-200-C-2G that requires more room behind the plate. The bracket replaces the existing bracket on one side of the box. The replacement bracket stands vertically instead of at an angle like the original box bracket.

**FL-200 Series covers are designed to match those on the FL-500P and FL-600P Series floor boxes.**

**SmartFit Poke-Thru Options**

The Crestron DM-TX-200-C-2G Digital Media Transmitter Wall Plate can also fit into the 8” SmartFit poke-thru without any modification by simply using the MMS-SF8 Wall Plate kit. The kit includes (4) 26659 standoffs and (4) 43763 washers to raise the plate in order to clear the depth of the Crestron DM-TX-200-C-2G. The SmartFit SFA-SPC5-xmxx plate can be installed over the Crestron DM-TX-200-C-2G for a finished look.

**PWB Wall Box Options**

The PWB-270 / 273 wall boxes are specifically designed to quickly and easily house a Crestron DM-RMC-SCALEN-C Receiver and power supply (provided by Crestron) behind a wall mounted display. The power supply is mounted to a removable bracket which is in turn mounted to the back box.
**FSR’s expanded solutions for making Floor & Wall Boxes “Crestron Ready”**

**FL-500P / 600P Series Floor Box Options**
There are two new mounting bracket kits available for mounting Crestron DM-TX-200-C-2G Digital Media Transmitter Wall Plates into the following 4” deep Floor Box models:

- FL-200 uses MMES-FL-200-4 mounting kit (kit only)
- FL-500 and FL-540 4” deep Floor Boxes use the MMES-FL-500/540P-4 mounting kit.
- FL-600 and FL-640 4” deep Floor Boxes use the MMES-FL-600/640P-4 mounting kit

* Installation requires a minor field modification of the DM-TX-200-C-2G wall plate as shown on the supplied drawing. No modification or special brackets are required for the 6” or deeper model floor boxes. The mounting kits above (06301 or 06345) include brackets that replace existing brackets on one side of the floor box. Depending on the floor box model, this new configuration will still leave the existing bracket with a 4-gang or 5-gang opening on the opposite side for other AV, Data, or AC power connections. The replacement brackets stand vertically instead of on an angle like the original brackets in the floor box. The right side of the replacement bracket mounts the modified Crestron DM-TX-200-C-2G, and the left side of the bracket is pre-drilled for Extron AAP Plates. Alternatively, a custom plate (client supplied) can be used to mount other style connectors. This plate should be made to match the specifications we list on our drawings.

**FL-200 Floor Box**
The new FL-200 pour-in-place floor box series is designed to provide a smaller box option. The 4” back box has a single Decora opening for data or power connections on one side. The optional bracket, ordered separately, has a 2 gang opening for mounting a modified Crestron DM-TX-200-C-2G that requires more room behind the plate. The bracket replaces the existing brackets on one side of the box. The replacement bracket stands vertically instead of at an angle like the original box bracket.

**FL-200 Series covers are designed to match those on the FL-500P and FL-600P Series floor boxes. This provides visual continuity in installations where FL-200s are installed along with FL-500Ps and FL-600Ps. The covers must be selected for the floor box and type of installation.**

**SmartFit Poke-Thru Options**
The Crestron DM-TX-200-C-2G Digital Media Transmitter Wall Plate can also fit into the 4” SmartFit poke-thru without any modification by simply using the MMES-SF8 Wall Plate kit. The kit includes (4) 26659 standoffs and (8) 43763 washers to raise the plate to the back box. The SmartFit SF8-SPC5 trim plate can be installed over the Crestron DM-TX-200-C-2G for a finished look.

**PWB Wall Box Options**
The PWB-270 / 273 wall boxes are specifically designed to quickly and easily house a Crestron DM-RMC-SCALEN-C Receiver and power supply (provided by Crestron) behind a wall mounted display. The cover and power supply are mounted to a removable bracket which is in turn mounted to the back box.
The standard PWB-450 is the largest of our PWB Series Wall Boxes. Two mounting brackets are available for mounting the Crestron DM-RMC-4K-SCALER-C receiver/room controller or other digital media interfaces and devices.

Inside the PWB-450 are four (4) pre-wired AC outlets along one vertical side of the box which are isolated from the four (4) accessory plate mounting brackets to allow AC and low-voltage connections within the same box. There is a ¾" – 1½" concentric KO on the top and bottom of the box for the AC conduit connections. 1" KO’s in the divider plates to allow the use of one or more accessory plates for AC connections.

Three of the accessory plate brackets are punched for a single gang Decora opening while the fourth bracket is punched for an IP5 box. Each bracket accommodates other digital media interfaces/devices listed in the chart.

Features
- **Rugged 14 Gauge Steel**
- **Black or White cover options**
- **4 pre-wired AC outlets** (1 rotated)
- **Simple installation**
- **Removable Internal Brackets to accommodate larger devices**
- **Mounting Hardware Included**

Optional PWB-450-DM4k Bracket accommodates the Crestron DM-RMC-4K-SCALER-C two (2) of the accessory plate brackets will be removed from the box.

Applications
- Digital Signage
- Huddle Areas
- Hospitals
- Conference Centers
