

E-CONNECT WITH **FSR**

**Introducing
high-speed data
transfer, USB communication,
and power all in one cable!**

FSR's latest Digital Ribbon offering is a full-featured USB Type-C DisplayPort 4-lanes active optical fiber cable. FSR's Digital Ribbon USB Type-C cable is a versatile tool that empowers you to do more. It provides the high-speed data transfer capability and reliable connectivity you need to transfer files locally, or project your computer to several monitors without the need for complex configurations or additional software, using a compatible hub or dock. With this cable, you have the power to enhance your productivity and efficiency at work.

USB Type-C and USB-C are registered trademarks of USB Implementers Forum, Inc. This product is not USB-C certified.
