

SYMPHONY **CONNECT** Table Box Series

The latest evolution in FSR's Symphony table box line

FSR's Symphony Connect is a modular power and charging system designed for portable and adaptable table environments. Pluggable interconnecting cables eliminate the need for hardwiring and allow up to six units to be daisy-chained across a combined 50-foot run, with optional tees and extension cables supporting flexible layouts. Available in on-table, under-table, and in-table configurations, Symphony Connect delivers locking connectors with finger-press release and 65 watts of shared-capacity charging for phones, tablets, and laptops.

max (5/9/12V)

On-Table

Power within
easy reach.

Place power and
charging directly on
the work surface for
immediate user access.

Clamp-On

Secure at the
table edge.

Add accessible power
with a mounting style
designed for portable
and adaptable furniture.

Mix. Match. Connect.

**Symphony Connect
table boxes are
interchangeable
with one another.**

Under-Table

Close by.
Out of sight.

Keep the work surface
open while placing power
and charging beneath
the table.

In-Table

Built into the
workspace.

Integrate connections into
the furniture for a clean,
finished installation.
