TB-AVAC
TB-CHRG
“TILT ‘N SELECT” TABLE BOXES

DESCRIPTION

The TB-AVAC and TB-CHRG serve the needs of a single user at a desk, workstation, huddle area, common area or even multiple locations within a boardroom table. The tilt-up design provides a clean and attractive appearance when the cover is closed, while providing access to the most needed connections when the cover is open. In the open position, the connectors will be at approximately a 35° angle from vertical. This is to accommodate a seated person at the table, with the box being 22” from the edge of the table.

The TB-AVAC table box is designed for AV/IT applications. The box has one integrated UL-Rated AC receptacle and ships with two different connector plates. The first plate is pre-punched to accept two panel-mount HDMI or DisplayPort connectors as well as two keystone connectors. The second plate is pre-punched to accept one panel-mount HDMI or DisplayPort connector, one HD-15 connector and two keystone connectors. Our full line of Simple Solutions (SS) keystone snap-in connectors as well as panel mount HDMI & DisplayPort cables (dongles) can be ordered with the TB-AVAC.

The TB-CHRG has a built in AC Duplex Receptacle with 2 integrated 12W USB Chargers. The UL-Listed 15 Amp, 125 Volt AC duplex receptacle has a 5 Amp charging section with two USB type 2.0 charging ports (5 Volt DC each).

FEATURES

• Can be mounted in a wide variety of tables with thicknesses ranging from .75” to 2.25”
• Connector plates can be populated to match the specific application and customer needs
• Both models are ETL listed for furniture installation
• 9’ power cord with a standard 3 prong Edison plug
• TB-AVAC keystone openings can use FSR’s SS-USB-CHRG snap-in USB Chargers
• Can be reconfigured at any time
• Available in Black Anodized finish
• Two Keystone blanks and one 3.5mm cable mount Keystone included with TB-AVAC model

OTHER MODELS

The TB-IPS is a tilt top style box that can be easily custom configured for any job. The unit has openings for up to (8) single IPS insert plates or a variety of multiple plate arrangements.

The new TB-BOSE and TB-BOSE-IPS table boxes are tilt top style table boxes designed specifically to contain a Bose™ FreeSpace 3 Surface-Mount Satellite Cube Speaker. (Speaker provided by customer)
