DESCRIPTION

Add color to your workspace with FSR's new line of Symphony POP's Table Boxes.

The Symphony POP's table boxes breathe life into spaces combining elegant form with function. The gentle curved shapes allow for CAT6, 6a or 7 along with AV cables to bulkhead AV connections while maintaining aesthetics in modern interiors. The Symphony Pop's provide an attractive user interface while solid construction throughout ensures reliable performance in demanding environments.

The possibilities for connectivity are also extensive with configurations available for power, USB and data. Both "Clamp-On" or "Under-Table" styles are offered for table, shelf, or chair mounting.

FSR's Symphony combination USB charging port incorporates power management integrated circuitry to communicate via todays' and legacy protocols to determine the charging requirements for your devices. The built in overload protected, auto-recovery power supply, provides the fastest charging based on the available power to one or both ports.
