

FLH20

HIGH-LOAD CAPACITY FLOOR BOX

Metal Products Group

DESCRIPTION

FLH20 covers are designed to meet H20 load ratings using 7/8" thick type 6061 T6 heat-treated aluminum. The clear anodized cover is available for use in concrete, carpet or tiled floors. The two cable exit doors incorporate FSR's exclusive 3 position cam locks which allow "One Click" operation to open the cable door or remove the cover. An alternate cover option is a plain cover with no cable access doors for a when the box is used as a junction box and cable exit capability is unnecessary.

FEATURES

- Designed for heavy floor traffic
- Maximum static load for solid cover is 24,000 lbs. and 16,000 lbs for carpet insert cover
- Integral carpet edging or solid design
- Cable pass-through ready
- Two locking cable exit doors (not on utility cover)

TYPICAL APPLICATIONS

Hotels, Ballrooms, Stages, Convention Centers, Museums, Warehouses, Showrooms, Lobbies
