RFL Series D

DESCRIPTION

The RFL Series D Raised Access Floor Boxes are designed for flexibility, durability and style. These rugged units safely handle the rigors of high traffic floor environments. There are three cover styles to choose from: Single door carpet trim cover, dual door carpet trim cover or a single door solid cover.

All cover styles are available in three colors with custom colors available on request (Consult factory).

All Series D models feature all steel construction for durability and are designed to install in a 6½" X 9¼" opening in the floor. They are available in either 4⅞" or 3¼" box depths.

The RFL4.5-D2G is a 4⅞" deep floor box with two standard double gang openings on opposite sides of the box. Either or both of the compartments may be used for power or data.

The RFL4.5-D1G is a 4⅞" deep floor box with two standard single gang openings on opposite sides of the box and 1 single gang opening on the bottom for data. The data plate insert is removable for added room in the box.

The RFL3-D1G is a 3¼" deep floor box with 2 standard single gang openings on opposite sides of the box. Either or both of the compartments may be used for power or data.

FEATURES

The RFL Series D features:

- Patented epoxy wrinkle powder finish, available in 3 colors
- Choice of three cover styles; solid, single-door and dual-door
- 14-gauge steel construction
- Cover thickness ⅜"
- Oversize cable door(s)
- Standard electrical plate openings on all models
- Superior mounting clamp design to handle a wide variety of floor thicknesses
- Listed by UL to meet US and Canadian safety standards
- Large multi-compartment boxes for power, audio, video, data and more!
- Multiple knockouts in a variety of sizes
- Choice of two box depths
- Choice of two gang layout styles

Architectural Note: The carpet rim and cable exit door are available standard in gray, black, or clay. Custom finishes are also available as an option. Optional 1" x 2" KO grommet FSR part #13342.

Similar FSR Products

The **RFL Series AV** raised access floor boxes are perfect for applications in raised floors where AV connections and power are required in one box. They are available in a small two gang "D" model and a larger "Q" model to accommodate up to a 4-gang arrangement (requires optional plate) to handle a variety of installation demands. See RFL Series AV spec sheet for details.

RFL-QAV-SLBLK Pictured

The **RFL Series Q** raised access floor boxes are designed for installation applications where higher capacity is required. These large multi-compartment boxes have ample room for power, video, audio, data and more. They are available in two depths, two gang layout styles with removable dividers to isolate power and create different gang arrangements. See RFL Series Q spec sheet for details.
