PoE to USB Chargers

FSR
Power Products Group

IT-WPCHRG-P2U

IT-CHRG-P2U

Patent No. 9,755,852

Using FSR's PoE to USB chargers, you can power and charge USB devices such as an iPad® from a PoE-Ethernet drop without the need for AC line power. The IT-CHRG-P2U "cube style" model can be mounted in a 2-gang wall box behind a wall mounted USB device. Both units emulate the Apple™ charging circuit to avoid annoying pop-ups. The IT-WPCHRG-P2U Decora style models fit directly into a standard gang box and are available with black or white cover plates.

The PoE to USB chargers will operate and charge the iPAD®, iPOD®, iPHONE® and most other USB powered devices. The output side is rated at 5VDC@2A/10W and both models derive ample power from a standard PoE network connection.

Mount in a 2-gang wall box

FEATURES

- *Powers/charges USB devices without an AC line*
- *Compatible with USB 2.0 and power switch requirements*
- *Universal USB charger*
- *Power "ON" indicator*
- *IEEE 802.3at Type1 Class 0 IEEE 802.3af*
