Optional Manufacturers Specific Mounting Brackets

The new U-Access cover design features a handle to allow the cover to remain in place after connections are made and cables are routed through it. The 0.25" and 0.5" raised edge style and solid covers are UL scrub water approved.

The innovation continues to the "transformable" box bottom. The FL-500P's internal bracket can be arranged to provide numerous options for both high and low voltage standards.

The unit includes all of the necessary internal plates and boxes. Several box depths are available. The 3" through 10" depths are available. Removable center dividers make passing cables through the various compartments a snap.

The innovation continues to the "transformable" box bottom. The FL-500P's internal bracket can be arranged to provide numerous options for both high and low voltage standards.

**COVER-OPTIONS**

**FL-500P Floor Box**

**“TOOL-LESS” U-ACCESS COVER DESIGN**

The cable access door can be easily removed by lifting the integrated U-Access handle to quickly access the interior compartment, connections, and cables.

- 11-gauge steel temporary construction cover included
- 1/2"-gage flashed steel cover with choice of carpet edging
- Millend brass or aluminum carpet edging . 5" or .25 high
- Stainless steel construction brackets
- Lift-off full access door

*Scrub water approved for carpet, tile, and wood floors!*

**SPECIFICATIONS**

- **Size:** Box: 14" x 14" x depth
  - Cover: 10.5" x 12.5" x 12.5"

- **Flanging:** Height: .25" or .5" Material: Brass or Aluminum

- **Flat and Solid Covers** are available

- **Max Load**
  - FL-500P U-Access Cover with 1/2" Thin: 1,600 lbs.
  - FL-500P solid U-Access Cover: 2,300 lbs

- **Mat. 500P** combines rugged construction and an elegant design for use in carpet, tile, or wood covered floors over poured concrete applications. This makes it the perfect floor box for ballrooms, meeting rooms, public spaces, and high traffic areas. There is ample compartment room to accommodate power, audio, video, telecommunication, and data in one elegant and practical box.

- There are a variety of covers to choose from. Options include integrated carpet edging, flat covers for non-carpeted, bare floor applications, and different finishes. The lift-off section of the cover allows full access to internal connector plates and stored cables. The hinged cable exit door flips back to allow the cover to remain in place after connections are made and cables are routed through the .25" and .5" raised edge style and solid covers are UL scrub water approved.

- The innovation continues to the “transformable” box bottom. The FL-500P’s internal brackets can be arranged to provide numerous options for both high and low voltage standard gang openings, making it the most flexible and easiest to install floor box available. Removable center dividers passing cables through the various compartments a snap. The unit includes all of the necessary internal plates and brackets to make "pre" and "post" compartment changes quick and easy. Using this system, both high and low voltage gang configurations, along with wire compartment isolation, can be implemented "on the fly". This makes just about any cabling / connector scenario possible.

- FSR also offers a line of larger Fire-Resistant floor boxes.

- **FSR-500P-6-FRK and FL-605P-6-FRK solutions expand the versatility of our floor box line by providing enhanced, modestly priced versions of our existing products. Our FWR info is UL Listed and comply with UL 263 Fire Resistance Ratings.**

See Lit 1458 FR Brochure for details.
