# FL-300-FF & FL-340-FF
## FURNITURE FEED FLOOR BOX FAMILY

FSR
Metal Products Group

Pour-in-place concrete

Raised access

FSR floor box products meet the Build America Buy America Act (BABAA) and TAA requirements

## DESCRIPTION

*The FL-300-FF brings an integrated furniture feed capability to FSR's floor box lineup. Designed as a compact, two-chamber solution, this floor box allows cables to pass directly from the floor into furniture, enabling clean, efficient power and connectivity in modern interiors. Based on the trusted FL-200 platform, the FL-300-FF offers two back box styles to suit different environments: the FL-300 back box comes with leveling feet and is designed for pour-in-place concrete, and the FL-340 back box comes with a rim and box securing clamps and is designed for raised access or wood floor installations.*

*Its low-profile cover is available in aluminum or black, with interchangeable plate options for flexible cable exit configurations. The cover system is provided with plates for 3/4" and 1-1/2" conduit fittings, along with a blank cover plate and color matched hardware. For installations over stained concrete or Terrazzo, an optional shim kit ensures a clean, flush fit. With two trim ring styles offered in two color options, the FL-300-FF delivers a furniture feed solution that is as versatile as it is compact.*

## FEATURES

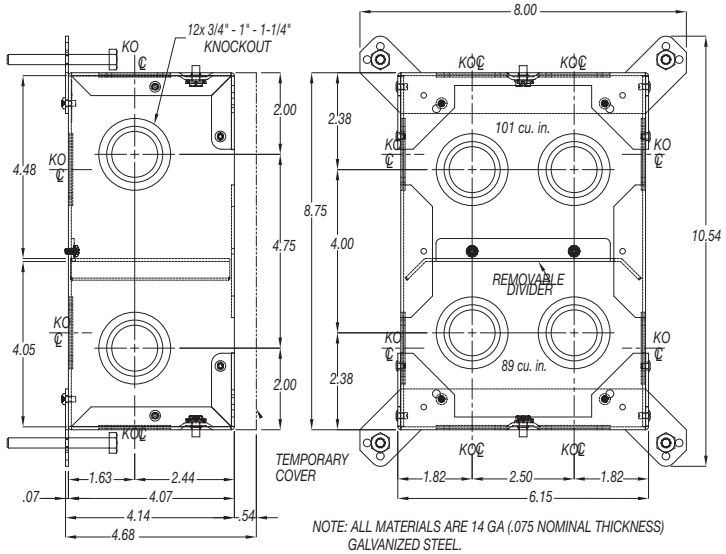

- *Two-chamber 4" deep floor boxes with direct furniture feed capability*
- *Based on the proven FL-200 floor box design*
