Metal Products Group

FL-300-FF & FL-340-FF  
Furniture Feed Floor Boxes

Pour-in-place concrete

Raised access

FSR floor box products meet the Build America Buy America Act (BABAA) and TAA requirements

## DESCRIPTION

The FL-300-FF brings an integrated furniture feed capability to FSR's floor box lineup. Designed as a compact, two-chamber solution, this floor box allows cables to pass directly from the floor into furniture, enabling clean, efficient power and connectivity in modern interiors. Based on the trusted FL-200 platform, the FL-300-FF offers two back box styles to suit different environments: the FL-300 back box comes with standoffs and is designed for pour-in-place concrete, and the FL-340 back box comes with a rim and box securing clamps and is designed for raised access or wood floor installations.

Its low-profile cover is available in aluminum or black, with interchangeable plate options for flexible cable exit configurations. The cover system consists of 5 pieces: a blank plate, a plate tapped for a 1.5" fitting, a plate tapped for a 1" fitting, a 1.5" to 1" reducer bushing, a .75" to .5" reducer bushing, and a 1" closure plug. For installations over stained concrete or Terrazzo, an optional shim kit ensures a clean, flush fit. With two trim ring styles offered in two color options, the FL-300-FF delivers a furniture feed solution that is as versatile as it is compact.

## FEATURES

- Two-chamber 4" deep floor boxes with direct furniture feed capability
- Based on the proven FL-200 floor box design
- Two back box options: FL-300 for pour-in-place concrete, FL-340 for raised access or wood floors
