

On-Table Retractors

CPRT-7-USBC 7"x7" model shown

CPRT-10-USBC 7"x10" model shown

DESCRIPTION

FSR's Cable Pilot delivers clutter-free connectivity for Microsoft Teams Rooms® and other collaboration spaces. The Cable Pilot retractors 7" and 10" models provide a compact, reliable solution for HDMI and USB-C cable management, keeping your meeting tables organized and professional. Cable Pilot eliminates the messy cables stretched across your meeting table by neatly housing an HDMI and USB-C cable. The BYOD cable can then be quickly deployed up to 6 feet when needed and retracted when the meeting is complete.

Designed for direct connection to touch controllers, these retractors eliminate tangled wires and maintain an organized and distraction-free environment. Built for long-term reliability, the Cable Pilot series features a low-profile, compact form factor (available in 7"x7" and 7"x10" models) that fits perfectly beneath your touch controller. We recommend securing your BYOD touch controller to top of Cable Pilot with the provided mounting velcro. Whether installed in boardrooms, huddle rooms, or collaborative workspaces, the Cable Pilot retractors simplify connectivity and enhance the overall meeting experience.

FEATURES

- Provides clean, retractable tabletop cable management for HDMI or USB-C devices
- Mounting velcro provided
- High-speed HDMI cable male to male with ethernet 4K@60Hz HD 1080p 18Gbps 3D HDMI 2.0
