

HATCH SERIES FLOATING WOOD & SPORTS FLOOR BOX COVERS

Metal Products Group

Hatch Series

DESCRIPTION

The Hatch Series Covers are designed to provide a clean, durable floor box solution for floating wood and sports flooring systems in demanding environments. Built for use with our FL-500P and FL-600P floor boxes, these covers combine rugged construction with an attractive finish that blends seamlessly into athletic floors, fitness centers, performing arts spaces, gyms, and other multi-use facilities. Their large door design allows convenient access to power, audio, video, and data connections while maintaining a professional appearance.

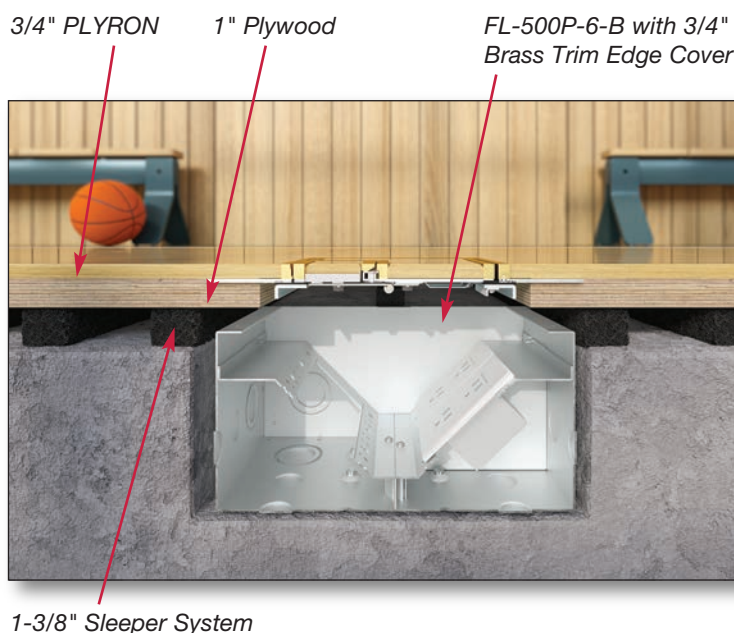

Engineered for both flexibility and performance, the Hatch Series is available in multiple cover styles to suit a range of installation preferences, including 3/4" trim hatch covers in brass or aluminum for wood inlaid applications, as well as solid covers in black or aluminum. Both styles are designed to provide a flush, seamless installation that complements the surrounding floor surface. Made in the USA and available for quick shipment, these covers deliver a practical, reliable solution for projects where appearance, durability, and accessibility all matter.

FEATURES

- Flush seamless installation
- Offered in brass trim, aluminum trim, or a solid style cover

APPLICATIONS

- Athletic Floors
- Performing Arts Surfaces
- Fitness Centers
- Gyms
