

Metal Products Group

Integrated with CT6 & RT6 Table Boxes

CT6-CPRT-BLK

RT6-CPRT-BLK

DESCRIPTION

FSR's Cable Pilot CT6 and RT6 Table Box solutions integrate under-table retractors directly into the table, keeping the retractor concealed below the work surface while maintaining convenient cable access above. The under-table retractor models provide 5 feet of payout, multiple mounting orientations, and a four-roller cable nozzle for smooth deployment. CPRT-UT retractors and T6-LB inserts are sold separately.

The CT6-CPRT features a unique clip-in design that allows one, two or three under-table retractors to be mounted on the back or sides of the chassis, depending on the table construction. The remaining space accommodates one T6 large bracket, typically configured with AC power and USB-A and USB-C charging, plus two keystone ports for additional connectivity.

The RT6-CPRT configuration is available in the RT6-S3 and RT6-S4 models. Both table boxes mount one or two under-table retractors on the left and right sides of the box. The RT6-S3 preserves space for one large bracket insert, while the RT6-S4 provides space for two or three large bracket inserts. All CT6-CPRT and RT6-CPRT boxes include the necessary hardware for mounting the under-table (CPRT-UT) retractors.

APPLICATIONS

- Conference rooms
- Boardroom tables
- UC&C meeting spaces
- Huddle rooms
- Collaboration areas
- Classrooms and training facilities
- Corporate offices
- Touchdown spaces
- Desks and workstations
- Lecterns
- Control consoles

FEATURES

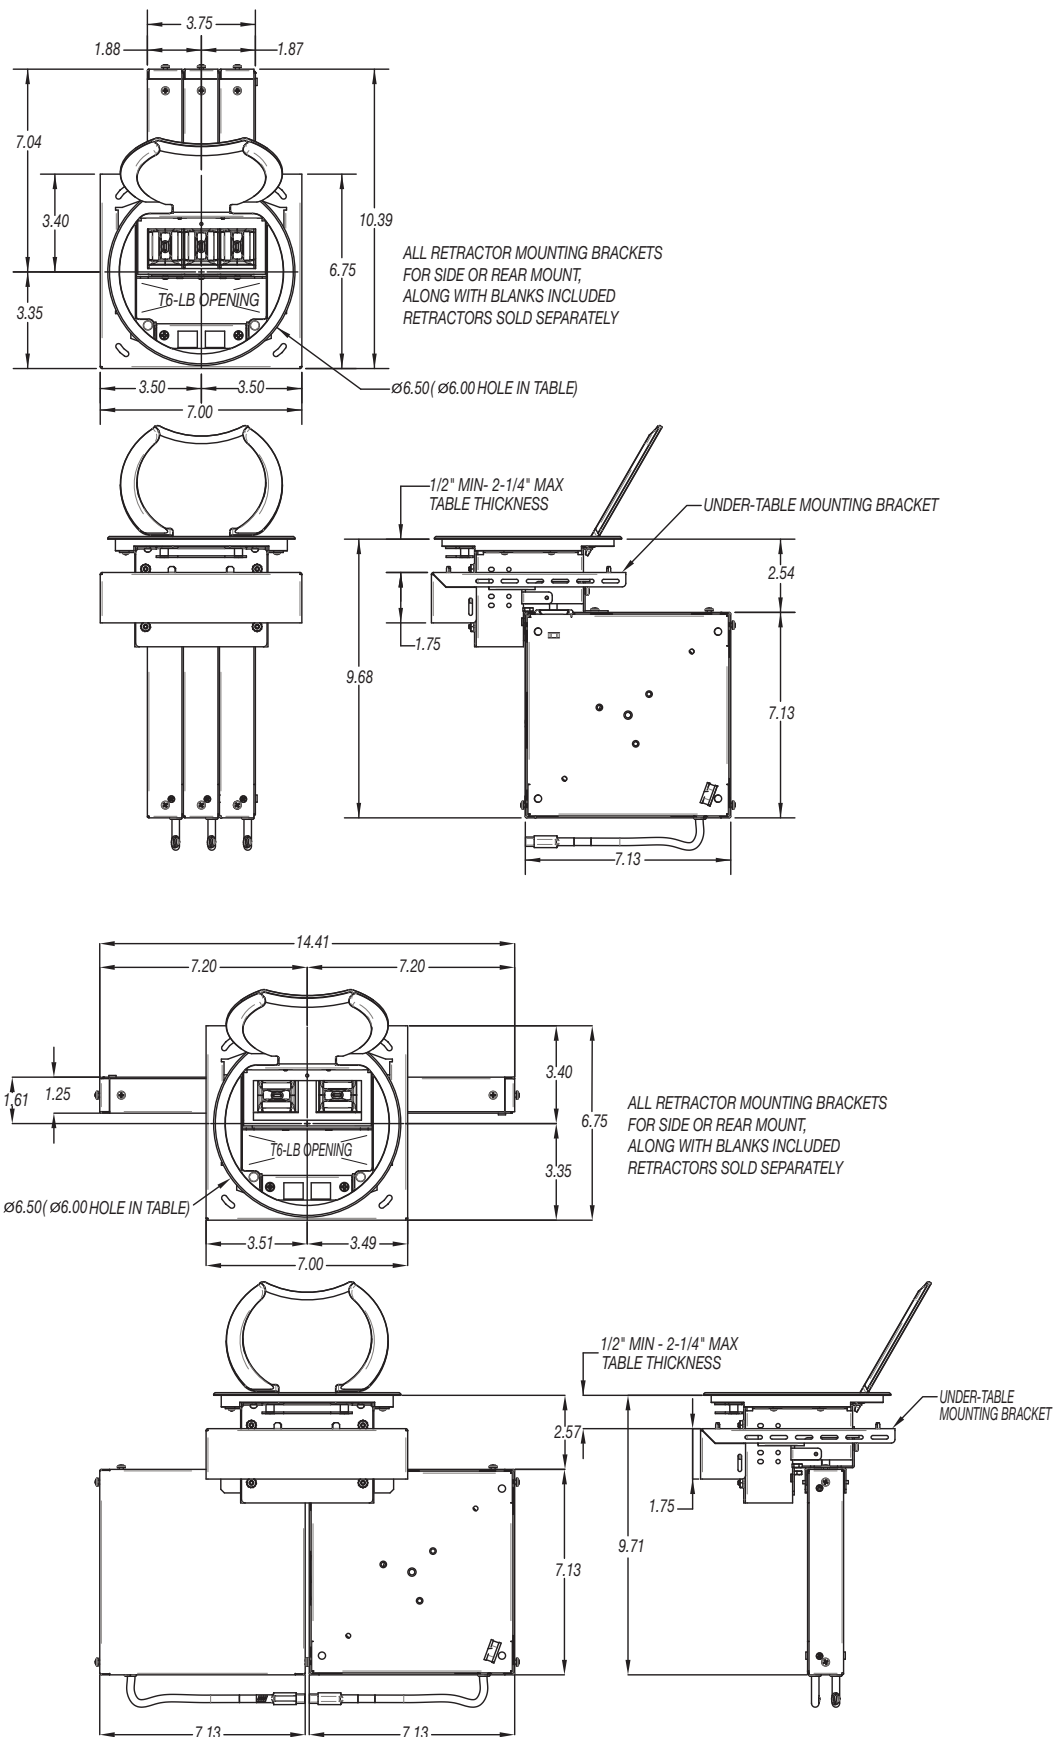

- Integrates CPRT-UT (sold separately) HDMI, USB-C, or CAT6 retractors into the table box
- Keeps retractors and excess cable concealed beneath the work surface
- Provides 5 feet of smooth, retractable cable payout
- Includes all necessary under-table mounting hardware
- Available in an attractive black or clear anodized aluminum covers
- Supports T6-LB inserts for power, USB charging, AV, data, and low-voltage connectivity
- Unique clip-in retractor mounting design
- Supports two retractors mounted from the left and right sides or three retractors mounted from the back (CT6 Model)
- Includes two additional keystone ports (CT6 Model)
- CT6-CPRT models install in a 6-inch-diameter round tabletop opening
- Two under-table retractors (CPRT-UT) mount in RT6-S3 and RT6-S4 configurations
- RT6-S3 provides space for one T6-LB insert
- RT6-S4 provides space for two T6-LB inserts
- RT6-CPRT models are designed with low-profile hideaway doors to conceal connections when not in use
