

TB-IPS "TILT 'N SELECT" TABLE BOXES

FSR

Metal Products Group

TB-IPS

IPS plates and connectors
ordered separately.

DESCRIPTION

The TB-IPS Table Box offers convenience at a price that fits within your budget. The tilt top style box can be easily custom configured for any job specific cabling scenario. The unit has openings for up to (8) eight single IPS insert plates or a variety of multiple plate arrangements.

The TB-IPS table box is available in Black Anodized finish. In the open position, the connectors will be at approximately a 35° angle from vertical. This is to accommodate a seated person at the table, with the box being 22" from the edge of the table. There is up to 4" of clearance behind the IPS plate surface.

IPS INSERTS

The IPS (Intelligent Plate Solutions) line offers a wide variety of interconnect solutions that satisfy virtually any AV and DATACOM interface application. Customizing just became standard at budget friendly prices. Create unlimited combinations of connector inserts with this diverse assortment of IPS inserts that work well with the TB-IPS table box.

The insert connectors are mounted to steel plates insuring a lifetime of service. The inserts are available with no labeling, standard labeling, or FSR will custom label them for you as well. Additionally, our IPS inserts can be changed at any time for easy upgrade. All IPS inserts carry a limited lifetime warranty.

APPLICATIONS

- Court Rooms
- Desks
- Boardroom Tables
