IPS Series/Simple Solutions

Wall & Under Table Connector Solutions

FSR

Metal Products Group

Lifetime warranty on IPS Wall Plates, Insert Plates & Under Table Mounts

DESCRIPTION

Simple. Flexible. Affordable.

The IPS (Intelligent Plate Solutions) line is a wide variety of interconnect solutions that satisfies virtually any AV interface application. Customizing just became standard at budget friendly prices.

Create unlimited combinations of connector inserts with this diverse assortment of sleek wall plate and under table mounting styles. Select wall plate opening styles accept only IPS inserts. Other styles accept various combinations of any IPS insert and FSR's Decorator style inserts, allowing you to mix and match. See illustrations for details on the endless possibilities.

Specific IPS wall plate models are manufactured with 1/4" thick milled aluminum, and are designed to have the IPS insert fit flush upon installation : (See page 4 for part information). All system components are quick and easy to install and come with all necessary assembly hardware. All inserts and plates are available in white or black (under table boxes available in black only).

IPS under-table boxes are manufactured of 16-gauge, cold rolled steel and designed to provide easy under table connectivity without ever having to cut a hole in your table.

All assembled units provide visually attractive and functional elements worthy of even the most luxurious architectural environments.

Ordering is simple!

1. *Identify part numbers and descriptions using the illustrations.*
2. *Select your choice of connectors, insert style and color for your application.*
3. *Choose the wall plate or under table mount that accommodates your selection of inserts and/or connectors.*

The Simple Solution (SS) series of Decorator style inserts (pictured on page four) are plastic, snap-in connectors. This is part of an existing FSR series that is also compatible with IPS system. SS series is available in white or black.

FEATURES

- *Unlimited connector combinations*
- *Rugged and attractive construction*
- *Convenient connection point for most AV products*
- *Plates and connectors can be easily added and changed*
- *Active and passive interfaces available*
- *Choice of two colors (except UT models: black only)*
- *Huge choice of schemes*

APPLICATIONS

- *Classrooms*
- *Boardrooms*
- *Conference Rooms*
- *Control Rooms*
- *Lecterns*
- *Lobbies*
- *Churches*
- *Airports*
- *Hotels*
- *Hospitals*

IPS INTELLIGENT PLATE SOLUTIONS

Ordering is simple using "IPS Designer" on the FSR Website

FSR makes designing a fully populated wall plate a few clicks away with its "IPS Planner" accessible on the FSR website. Simply "drag and drop" to load a wall plate with Decorator style™, IPS and Twister 2 inserts. This "view as you build scheme" allows the user to fully populate wall plates with the desired components in a matter of minutes. A detailed parts list can than be viewed and printed for fast, easy ordering."
