FL-1500
FLOOR BOX

FSR floor box products meet the Build America Buy America Act (BABAA) and TAA requirements

FSR Metal Products Group

DESCRIPTION

The FL-1500 floor box provides a practical solution for power, audio and video cable termination and connection. This unique floor box is designed for raised floor applications such as wooden stage and computer floors. Its dual-door design allows full access when making connections, yet only leaves a small cable opening during use.

The unit includes a blank plate for the A/V area opening that can be modified as required to suit the particular application requirement. As an option, six removable connector mounting plates are available for the FL-1500 box style with a variety of pre-punched holes to accommodate various common connector scenarios.

The durable cover of the FL-1500 is painted with Black Sandtex. There are eight 1"/1¼" concentric knockouts; four on the rear, and four on the bottom. The power section has two knockouts, and the audio/video section has six. The FL-1500 box is a one piece, all welded design. The cover is manufactured from ⅛" steel plate.

SPECIFICATIONS

Size:	Top 13½" x 9½" x 3/16"
	Box 11⅞" x 8" x 6"
Weight:	13 lbs.
